

Section A: Identification

Field: A01 Province

Description	Province that household is located in
Name	PROVINCE
Type	Numeric
Universe	All
Question text	none
Help text	none
Valid range	1-7
Responses	See questionnaire Annex 1
Prefill	From listing file
Consistency checks	None

Field: A02 District

Description	District that household is located in
Name	DISTRICT
Type	Numeric
Universe	All
Question text	none
Help text	none
Valid range	1-60
Responses	See questionnaire Annex 2
Prefill	From listing file
Consistency checks	None

Field: A03 Enumeration Area

Description	Enumeration area that household is located in
Name	ENUMERATION_AREA
Type	Numeric
Universe	All
Question text	none
Help text	none
Valid range	1-999
Responses	Obtain EA list from cartography
Prefill	From listing file
Consistency checks	None

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: A04 Area Type

Description	Type of community	
Name	AREA_TYPE	
Type	Numeric	
Universe	All	
Question text	none	
Help text	none	
Valid range	1-3	
Responses	Urban	1
	Peri-Urban	2
	Rural	3
Prefill	From listing file	
Consistency checks	None	

Field: A05 Household Number

Description	Serial number of household is located in	
Name	HOUSEHOLD_NUMBER	
Type	Numeric	
Universe	All	
Question text	none	
Help text	none	
Valid range	1-999	
Responses		
Prefill	From listing file	
Consistency checks	None	

Field: A06 Interview Date

Description	Year, month and day that interview was conducted	
Name	INTERVIEW_DATE	
Type	Date in YYYY-MM-DD format	
Universe	All	
Question text	none	
Help text	none	
Valid range	2016-10-3 to 2016-10-14	
Responses		
Prefill	From current date on tablet	
Consistency checks	None	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: A07 Interview Time

Description	Time of day that interview is begun, and interview ends as hours and minutes
Name	INTERVIEW_START_TIME, INTERVIEW_END_TIME
Type	Time in HH:MM format
Universe	All
Question text	none
Help text	none
Valid range	00:00 – 23:59
Responses	
Prefill	From current time on tablet
Consistency checks	None

Field: A08 GPS Coordinates

Description	Latitude and longitude of household location
Name	LATITUDE, LONGITUDE
Type	Numeric, 9 digits of decimal precision
Universe	All
Question text	none
Help text	none
Valid range	Latitude -90 to 90, Longitude -180 to 180
Responses	
Prefill	Obtain reading from tablet built-in GPS
Consistency checks	None

Field: A09 Interviewer code

Description	Unique code assigned to each interviewer
Name	INTERVIEWER_CODE
Type	Numeric
Universe	All
Question text	none
Help text	none
Valid range	1-999
Responses	
Prefill	From menu program
Consistency checks	None

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: A10 Interview Status

Description	Final completion status of interview	
Name	INTERVIEW_STATUS	
Universe	All	
Question text	Is this household available for an interview?	
Help text		
Valid range	1-5	
Responses	Interview completed	1
	Non-contact	2
	Vacant	3
	Refused	4
	Partially complete	5
Prefill		
Consistency checks	None	

Section B: Demographics

Field: B01 Person Number

Description	Line number of household member
Name	PERSON_NUMBER
Type	Numeric
Universe	All
Question text	none
Help text	none
Valid range	1-30
Responses	
Prefill	Start at 1 for first household member and increment by one for each subsequent member
Consistency checks	None

Field: B02 Name

Description	Full name of household member
Name	NAME
Type	String, 30-character maximum
Universe	All
Question text	Enter the name of the next household member
Help text	Include all persons living in this house who have common arrangements for cooking and dining.
Valid range	Must not be empty
Responses	
Prefill	Obtain name of head of household from listing file
Consistency checks	None

Field: B03 Sex

Description	Gender household member
Name	SEX
Type	Numeric
Universe	All
Question text	Is (name) male or female?
Help text	
Valid range	1-2
Responses	Male 1 Female 2
Prefill	None
Consistency checks	None

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B04 Relationship

Description	Relationship to head of household	
Name	RELATIONSHIP	
Type	Numeric	
Universe	All	
Question text	What is (name's) relationship to the head of the household?	
Help text		
Valid range	1-8	
Responses	Head	1
	Spouse	2
	Son/daughter	3
	Brother/sister	4
	Parent	5
	Grandchild	6
	Other relative	7
	No relation	8
Prefill	None	
Consistency checks	Head is 15 years old or more	
	Condition: Relationship is head of household and age < 15 Error message: Head of household must be at least 15 years old. Options: Correct age, correct relationship	
	One head of household	
	Condition: More than one member coded as head of household Error message: Number of heads of household must be exactly one. Options: Correct relationship	
Consistency checks	Head is 12 years older than child	
	Condition: Difference in age between member with relationship head and member with relationship son/daughter is less than 12. Error message: Child (name) is (age) years old but head (name) is (age). Parent must be at least 12 years older than child. Options: Correct head age, correct head relationship, correct child age, correct child relationship	
	Head is 24 years older than grandchild	
	Condition: Difference in age between member with relationship head and member with relationship grandchild is less than 24. Error message: Grandchild (name) is (age) years old but head (name) is (age). Grandparent must be at least 24 years older than grandchild. Options: Correct head age, correct head relationship, correct grandchild age, correct grandchild relationship	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

	Head and spouse have opposite gender
	<p>Condition: Member with relationship head and any member with relationship spouse have same value for sex.</p> <p>Error message: Head of household (name) and spouse (name) cannot have the same gender.</p> <p>Options: Correct head sex, correct head relationship, correct spouse sex, correct spouse relationship</p>

Field: B05 Age

Description	Age of household member in completed years
Name	AGE
Type	Numeric
Universe	All
Question text	How old is (name)? Enter age in completed years (0 for children less than one year old) If unknown enter 999
Help text	
Valid range	0-120, 999
Responses	
Prefill	None
Consistency checks	None

Field: B06 Date of birth

Description	Year, month and day of birth of household member		
Name	DATE_OF_BIRTH		
Type	Date in YYYY-MM-DD format		
Universe	All		
Question text	What is (name's) date of birth? Enter 9999-99-99 if unknown		
Help text			
Valid range	1896-01-01 to 2016-10-14 or 9999-99-99 if unknown		
Responses			
Prefill	None		
Consistency checks	<table border="1" style="width: 100%;"> <tr> <td style="background-color: #e0e0e0;">Age matches date of birth</td> </tr> <tr> <td> <p>Condition: Age and date of birth are known and age does not match difference between interview date and date of birth.</p> <p>Error message: Age (age) does not match date of birth (date of birth). Based on date of birth age should be (interview date-date of birth).</p> <p>Options: Correct age, correct date of birth</p> </td> </tr> </table>	Age matches date of birth	<p>Condition: Age and date of birth are known and age does not match difference between interview date and date of birth.</p> <p>Error message: Age (age) does not match date of birth (date of birth). Based on date of birth age should be (interview date-date of birth).</p> <p>Options: Correct age, correct date of birth</p>
Age matches date of birth			
<p>Condition: Age and date of birth are known and age does not match difference between interview date and date of birth.</p> <p>Error message: Age (age) does not match date of birth (date of birth). Based on date of birth age should be (interview date-date of birth).</p> <p>Options: Correct age, correct date of birth</p>			

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B07 Place of birth

Description	District in Popstan or foreign country in which member was born
Name	PLACE_OF_BIRTH
Type	Numeric
Universe	All
Question text	Where was (name) born? Enter district if born in Popstan, otherwise entry foreign country.
Help text	
Valid range	1-999
Responses	See annex 1 for district codes and annex 4 four for country codes
Prefill	None
Consistency checks	None

Field: B08 Residence one year ago

Description	District in Popstan or foreign country in which member resided 1 year ago
Name	RESIDENCE_ONE_YEAR_AGO
Type	Numeric
Universe	Age >= 1
Question text	Where was (name) living 1 year ago? Enter district if born in Popstan, otherwise entry foreign country.
Help text	
Valid range	1-999
Responses	See annex 1 for district codes and annex 4 four for country codes
Prefill	None
Consistency checks	None

Field: B09 Date moved to current district

Description	Year and month that household member first moved to the district that they reside in
Name	DATE_MOVED_TO_DISTRICT
Type	Date in YYYY-MM
Universe	All
Question text	When did (name) first move to the current district? For respondents enumerated in their district of birth enter year and month of birth. If date of move is unknown enter "99" for month and "9999" for year.
Help text	
Valid range	1896-01 to 2016-10 or 9999-99 if unknown
Responses	
Prefill	If district of birth (B07) = district (A2) set to month and year of birth
Consistency checks	None

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B10 Disabilities

Description	Disabilities of household member	
Name	DISABILITIES	
Type	Multiple response (checkbox)	
Universe	All	
Question text	Which of the following disabilities does (name) have? Mark all that apply.	
Help text		
Valid range		
Responses	Visual	A
	Hearing	B
	Speech	C
	Physical	D
	Mental	E
	Self-care	F
Prefill	None	
Consistency checks	None	

Field: B11 Sign language

Description	Does household member know sign language	
Name	SIGN_LANGUAGE	
Type	Numeric	
Universe	Option B (hearing) is selected in disabilities (B10)	
Question text	If hearing disabled does (name) know sign language?	
Help text		
Valid range	1-2	
Responses	Yes	1
	No	2
Prefill	None	
Consistency checks	None	

Field: B12 Mother alive

Description	Is household member's mother living	
Name	MOTHER_ALIVE	
Type	Numeric	
Universe	All	
Question text	Is (name's) mother alive?	
Help text		
Valid range	1-2, 9	
Responses	Yes	1
	No	2
	Don't know	9
Prefill	None	
Consistency checks	None	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B13 Mother line number

Description	Line number in household roster of mother of household member	
Name	MOTHER_LINE_NUMBER	
Type	Numeric	
Universe	All	
Question text	Who is (name's) mother? Enter line number if mother is in household Enter 87 for non-resident Enter 88 for deceased	
Help text		
Valid range	1-30, 87, 88	
Responses	Line number	1-30
	Non-resident	87
	Deceased	88
Prefill	None	
Consistency checks	<p>Mother line number deceased matches mother alive deceased</p> <p>Condition: Mother line number (B13) indicates deceased (88) and mother alive (B12) is yes or mother line number indicates mother alive (not 88) and mother alive is no.</p> <p>Error message: Mother alive does not match mother line number.</p> <p>Options: Correct mother alive, correct mother line number</p>	

Field: B14 Father alive

Description	Is household member's father living	
Name	FATHER_ALIVE	
Type	Numeric	
Universe	All	
Question text	Is (name's) father alive?	
Help text		
Valid range	1-2, 9	
Responses	Yes	1
	No	2
	Don't know	9
Prefill	None	
Consistency checks	None	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B15 Father line number

Description	Line number in household roster of father of household member	
Name	FATHER_LINE_NUMBER	
Type	Numeric	
Universe	All	
Question text	Who is (name's) father? Enter line number if father is in household Enter 87 for non-resident Enter 88 for deceased	
Help text		
Valid range	1-30, 87, 88	
Responses	Line number	1-30
	Non-resident	87
	Deceased	88
Prefill	None	
Consistency checks	<p>Father line number deceased matches father alive deceased</p> <p>Condition: Father line number (B15) indicates deceased (88) and father alive (B14) is yes or father line number indicates father alive (not 88) and father alive is no.</p> <p>Error message: Father alive does not match father line number.</p> <p>Options: Correct father alive, correct father line number</p>	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B16 Marital status

Description	Marital status of household member	
Name	MARITAL_STATUS	
Type	Numeric	
Universe	Age >= 10	
Question text	What is (name's) present marital status?	
Help text		
Valid range	1-4	
Responses	Never married	1
	Married	2
	Divorced	3
	Widowed	4
Prefill	None	
Consistency checks	Spouse cannot be single	
	Condition: Relationship is spouse and marital status is never married, divorced or widowed. Error message: (name) has relationship spouse and marital status (marital status). Spouse cannot be single, divorced or widowed. Options: Correct relationship, correct marital status	
Consistency checks	Married head of household cannot be single	
	Condition: Relationship is head, marital status is never married, divorced or widowed and there is at least on household member with relationship set to spouse Error message: The head of household (name) has a spouse and marital status (marital status). Married head of household cannot be single, divorced or widowed. Options: Correct relationship, correct marital status	

Field: B17 Age at first marriage

Description	Age at which household was first married	
Name	AGE_AT_FIRST_MARRIAGE	
Type	Numeric	
Universe	Age >= 10 and marital status is married, divorced or widowed	
Question text	What was (name's) age first marriage?	
Help text		
Valid range	12-120	
Responses		
Prefill	None	
Consistency checks	Age at first marriage is less than or equal to age	
	Condition: Age at first marriage (B17) is greater than age(B05). Error message: Age at first marriage cannot be greater than age. Options: Correct age at first marriage, correct age	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B18 Occupation

Description	Current occupation of household member
Name	OCCUPATION
Type	Numeric
Universe	Age >= 10
Question text	What is (name's) occupation?
Help text	
Valid range	1-9999
Responses	See annex 3
Prefill	None
Consistency checks	None

Field: B19 Languages spoken

Description	Languages that household member speaks fluently	
Name	LANGUAGES	
Type	Multiple response (checkbox)	
Universe	Age >= 10	
Question text	What languages does (name) speak fluently? Mark all that apply	
Help text		
Valid range	Must choose at least one language	
Responses	English	1
	French	2
	Spanish	3
	Hindi	4
	Arabic	5
	Mandarin	6
	Portuguese	7
	Other specify	8
Prefill	None

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: B20 Main language

Description	Primary language of household member	
Name	MAIN_LANGUAGE	
Type	Numeric	
Universe	Age >= 10	
Question text	What language does (name) speak most often at home? Choose only one	
Help text		
Valid range	1-8	
Responses	English	1
	French	2
	Spanish	3
	Hindi	4
	Arabic	5
	Mandarin	6
	Portuguese	7
	Other specify	8
Prefill	None	
Consistency checks	Main language must be one of the selected languages in languages spoken (B19)	

Section C: Education

Field: C01 Attended school

Description	Has household member ever been to school	
Name	ATTENDED_SCHOOL	
Type	Numeric	
Universe	Age >= 3	
Question text	Has (name) ever attended school?	
Help text		
Valid range	1-3,9	
Responses	Never attended	1
	Still attending	2
	Left school	3
	Don't know	9
Prefill	None	
Consistency checks	None	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: C02 Highest level of education

Description	Highest level of formal education completed by household member	
Name	HIGHEST_LEVEL_EDUCATION	
Type	Numeric	
Universe	Age >= 3 and attended school (C01) is still attending or left school	
Question text	What is the highest level of formal education that (name) has completed?	
Help text		
Valid range	0-14	
Responses	Pre-school	0
	Standard 1	1
	Standard 2	2
	Standard 3	3
	Standard 4	4
	Standard 5	5
	Standard 6	6
	Standard 7	7
	Standard 8	8
	Form 1	9
	Form 2	10
	Form 3	11
	Form 4	12
	University	13
Graduate	14	
Prefill	None	
Consistency checks	University graduate must be 18 or older	
	Condition: Age is less than 18 and highest level of education is university or graduate. Error message: University graduates are usually 18 or older but (name) is only (age) years old. Options: Correct highest level of education, correct age, ignore	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: C03 Literacy

Description	Can household member read or write	
Name	LITERATE	
Type	Numeric	
Universe	Age >= 3	
Question text	Does (name) know how to read or write in any language?	
Help text		
Valid range	1-2	
Responses	Yes	1
	No	2
Prefill	None	
Consistency checks	Standard 5 or higher is literate	
	<p>Condition: Highest level of education (C02) is standard 5 or above and literate (C03) is no. Error message: (name)'s highest level of education is (highest level) but they cannot read or write. Anyone who has completed standard 5 should be literate. Options: Correct highest level of education, correct literacy, ignore.</p>	

Section D: Fertility

Field: D01 Ever given birth

Description	Has household member ever given birth	
Name	EVER_GIVEN_BIRTH	
Type	Numeric	
Universe	Age is between 12 and 50 and sex is female	
Question text	Has (name) ever given birth? If no, probe with "I mean, to a child who ever breathed cried or showed other signs of life, even if the child only lived for a few minutes."	
Help text		
Valid range	1-2,9	
Responses	Yes	1
	No	2
	Don't know	9
Prefill	None	
Consistency checks	None	

Field: D02 Children in household

Description	Does household member have children that they gave birth to living with them	
Name	HAVE_CHILDREN_IN_HOUSEHOLD	
Type	Numeric	
Universe	Age is between 12 and 50, sex is female and ever given birth (D01) is yes	
Question text	Does (name) have any children who are still alive and living with her in this household?	
Help text		
Valid range	1-2	
Responses	Yes	1
	No	2
Prefill	None	
Consistency checks	None	

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: D02b Boys in household

Description	Number of male children of household member that are living in household
Name	BOYS_IN_HOUSEHOLD
Type	Numeric
Universe	Age is between 12 and 50, sex is female, ever given birth (D01) is yes and children in household (D02) is yes
Question text	How many of (name's) children that are still alive and living with her are boys?
Help text	
Valid range	0-9
Responses	
Prefill	None
Consistency checks	None

Field: D02g Girls in household

Description	Number of female children of household member that are living in household
Name	GIRLS_IN_HOUSEHOLD
Type	Numeric
Universe	Age is between 12 and 50, sex is female, ever given birth (D01) is yes and children in household (D02) is yes
Question text	How many of (name's) children that are still alive and living with her are girls?
Help text	
Valid range	0-9
Responses	
Prefill	None
Consistency checks	None

*Popstan 2020 Census of Population and Housing
Specification Document for Household Questionnaire Data Entry Application*

Field: D02t Total children in household

Description	Number of total children of household member that are living in household	
Name	CHILDREN_IN_HOUSEHOLD	
Type	Numeric	
Universe	Age is between 12 and 50, sex is female, ever given birth (D01) is yes and children in household (D02) is yes	
Question text	How many of (name's) children in total are still alive and living with her?	
Help text		
Valid range	1-18	
Responses		
Prefill	None	
Consistency checks	Total children living in household equals boys plus girls	
	Condition: Sum of girls living in household (D02g) and boys living in household (D02b) does not equal total children in household (D02t). Error message: The total number of children must equal the sum of the number of boys and the number of girls. Options: Correct total, correct boys, correct girls.	

Field: D03 Children living elsewhere

Description	Does household member have children that they gave birth to living outside the household	
Name	HAVE_CHILDREN_ELSEWHERE	
Type	Numeric	
Universe	Age is between 12 and 50, sex is female and ever given birth (D01) is yes
